

My Tale of Surviving Cancer by Graham Jenkins
Testimonial non-Hodgkin's Lymphoma and Leukemia
Dated March 16th 2005

Hi, I am Graham Jenkins. And this is my tale of survival!

Few years back, my status in life was of a man going through the pain of dreadful cancer who had given up every hope of survival. After all, living life was uncertain while death appeared to be the most certain thing in my life.

Fortunately, I came to know about Paul Rana's program in October last year after long 16 months of chemotherapy that restrained me from two cancers. Well, I was unlucky enough to be being diagnosed with two cancers- leukemia and non-Hodgkin's lymphoma.

So, I went through a 16 months old long treatment! Was told I was in full remission.

I was then asked to do a stem cell collection by my oncologist because the odds were I can get the cancers back again and once it comes back it can be very aggressive. So I agreed to do that. During that process of having stem cell collection I had to inject myself with a stimulating factor to stimulate stem cells from the bone marrow. But I'm convinced these stimulation factors actually started the tumor growing again because within about three weeks I had large tumors popping out of my neck and out my groin. So I knew that I was in for another new battle.

I went back to my oncologist finding him to be the best option in my distressed condition.

His immediate suggestion was to stop the stem cell collection and start the process of chemotherapy again. I gave it a thought. But after 16 months of long treatment the idea of doing the same thing, and getting the same result was not for me. I said, "No thank you, I will look for something else". I did not want to get back to the same treatment all over again.

During my 16 months of chemotherapy treatment, I had done a bit of research on the internet and came across some alternatives that were scientifically proved and had worked. I wanted to get hold of the fellow who provided such treatments but was not able to do so in Australia, so I was organizing to go to a Mexico Clinic. But after my long search on the internet I was looking at traveling overseas when I met someone in hospital that mentioned a man by the name of Paul Rana that was soon to open the NuEra cancer clinic and I was actually the first person to walk into the clinic at Port Melbourne in October, 2004. My tumors were like golf balls growing out of my head, neck, groin and stomach.

By the end of the week just before Christmas, I had no tumors and no pain. All gone! I was totally relieved.

It has been a really interesting journey because I learnt so much about myself, my body and just the fact that I had a choice to make the decision to go for alternative which was a big thing for me. During my treatment, I had to take B17 tablets, laetrile injections and Vitamin C drips. I also done the High PH Therapy, the X+Y=Z Program designed by Paul Rana. I also enjoyed the hyperbaric sauna and infrared sauna, they tended to increase my energy and make me feel overall better. I had lost every hope of my survival with the options of the painful chemotherapies left for me. I felt that I really did not have much of an option to go back orthodox and still have a chance to live. For me it has worked a truly excellent service! And I thank Paul Rana and the Rana family for that.

The RANA system has a manual that with the workshops and practitioner support teaches about 10 recommended therapies like diet, parasite cleanse, nutrition and emotional as well as positive support. Then you start the cancer fighting therapies like laetrile, IV Vitamin C and the High PH Therapy. The recommended therapies work effectively for me showing results within a few months.

Well! I enjoyed the program and more than that I have enjoyed being in the in the man's company, and everyone that works with Paul Rana, teaching The Rana Program, that I decided to join the company. I find the work very rewarding, I am very happy working here and I'm enjoying every moment. I thank you all for coming tonight to this presentation and listening to my story.

UPDATE: Paul Rana is now in South America and opening a new clinic with more choices. The laws in South America are open to alternative therapies and the lower cost of employing good staff means that a program that combines \$100,000 in therapies and treatments if in Australia can now be offered at less than ½ that on a three months treatment plan. They also call Paul DrPablo, a nickname given to him by his Ecuadorian Staff and friends. His not a traditional doctor, but he is my doctor and the best doctor I can recommend for cancer. He is a researcher and a must go to! Caring person that loves his work and the people he helps. His Australian clinic was closed because of his choices to put us clients first. God Bless him..

Good luck the team at www.Atlantis-salud-spa.com

Paul Rana wants you to understand the following before looking to do Alternatives and requested as a policy of membership to the program when I told him I wanted to do a testimonial we place the following after the testimonial.

**All information is intended for research and educational purposes only,
and no claims, either real or implied, are being made.**

"This statement has not been evaluated by the FDA. These products are not intended to diagnose, treat, cure, or prevent any disease."

Paul Rana's experiences with Cancer Research Programs are unique,
as he combines synergistically many **Alternative Programs**.

Government agencies would rather we withhold these stories from the public because,
allegedly, they constitute "**unproven medical claims**."

**However, as stated previously,
the only claims we make are that this information is authentic
and that the people who wrote them or videoed them were genuine people
and that it is their information as they wrote it, said it, felt it and believed it,
and they are real stories and not actors or made up stories.**

They were not paid or offered benefit for sharing their experiences.

**Truth is not truth unless it is the "whole" truth,
and these health success stories and scientific studies are just as much a part of the truth
as any success story or scientific study experienced by orthodox medicine.**

**Free men and women are entitled to have access to
"all" the information available so they can make intelligent and informed choices in matters of their own health.**

Therefore, we are sharing these success or non-success stories as an exercise of our right to freedom-of-speech and your right to freedom-of-information.

Enthusiastic Testimonials on alternatives or from Paul Rana's past clients can also not be seen as any assurance that you will get the same result.

The extent of the response to treatment varies from patient to patient, even with similar diagnoses, and/or age and sex, as the internal body environment is unique to each individual patient, client or student of the program.

Notwithstanding, the external body contamination and stresses from the past and present are also very individually unique, as will any responses, if any, to treatment.

Paul has employed Doctors and naturopaths in his NuEra Clinic.
Paul does give IV Vitamins and Minerals, however he is NOT A DOCTOR
he is a researcher and has had many years in the naturopathic field.

**ALWAYS seek medical advice
and use this information only if you're treating medical and health practitioner
agrees and recommends it.**
